Projects

CityFix Smart Civic Issue Management System

Full-Stack Web Application

- Built an end-to-end civic issue reporting platform with role-based workflows
- Designed and implemented RESTful APIs with validation and structured error handling
- Implemented JWT-based authentication and protected routes
- Developed responsive UI using reusable React components
- Optimized API calls and ensured secure client-server communication
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

Gym Tracker

React Application

- Developed a responsive workout tracking system using React Hooks and state management
- Built reusable UI components and scalable application logic
- Implemented dynamic UI updates and optimized rendering performance
- **Tech Stack:** React.js, JavaScript, HTML, Tailwind CSS

Weather Application

API Integration Project

- Integrated third-party weather API with asynchronous data handling
- Implemented conditional rendering and error handling for improved UX
- **Tech Stack:** JavaScript, REST API, HTML, CSS

Experience

Research Intern AI/ML Water Quality Assessment

Intern

- Contributed to data preprocessing and feature engineering for predictive modeling
- Assisted in model experimentation, evaluation, and analysis to improve prediction accuracy

Skills

Languages: Java, JavaScript, Python

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, SQLite

Core: Data Structures & Algorithms, OOP, REST APIs, Authentication

Tools: Git, GitHub, VS Code, Postman

Education

SRM University

B.Tech in Computer Science

GPA: 9.0

Achievements & Certifications

- Oracle Certified Professional Java SE 17 Developer
- Participated in multiple hackathons, collaborating in team-based problem solving and rapid prototyping
- Gained practical exposure to full-stack development, debugging, and real-world project workflows
